

Rohit Sen

Organization: ICLEI World Secretariat, Bonn, Germany

Designation: Head, Sustainable Energy

Mr. Rohit SEN (M) is the Head of Sustainable Energy Team at ICLEI - Local Governments for Sustainability (ICLEI), World Secretariat in Bonn.

Rohit is a senior expert in renewable energy technologies and project finance, with more than 12 years of professional experience in Germany, India, Scotland and Sub-Saharan Africa. He is also a Certified Expert on Financing NDCs. He has worked on projects pertaining to renewable energy, energy access, green buildings, e-mobility, energy efficiency and sustainable energy finance.

Rohit coordinates and manages all activities and projects related to sustainable energy transition. He is the global technical lead for the 100% Renewables Cities & Regions Roadmap Project implemented in Argentina, Indonesia and Kenya (funded by the German International Climate Initiative - IKI) and manages the 100% Renewables Cities & Regions Network and ICLEI's Energy Compacts provides guidance to committed subnational governments. The portfolio he manages includes ICLEI's vision on global transformation to a resilient and net-zero emission (climate neutral) future, by providing policy and technical assistance, and distilled knowledge to guide and support cities, towns and regions around the globe - regardless of size or location, with actionable and substantive solutions that accelerate and drive integrated sustainable energy action, considering all 5 ICLEI pathways: low-emission, nature-based, equitable, resilient and circular development

In the past, Rohit has held technical and management positions with various significant organizations like bettervest GmbH (Germany), Huber-GM (India), The Energy and Resources Institute -TERI (India), Metec AG (Germany), Hochschule Offenburg (Germany) and the University of Dundee (Scotland).

Rohit holds a mechanical engineering degree (2007) from India and two master's degrees in renewable energy technologies (2011) and energy management (2017) from University of Dundee, Scotland and Hochschule Offenburg, Germany respectively. He is fluent in English (Bilingual/Native), Hindi (Bilingual/Native) and professional working proficiency in German. Rohit also has full computer literacy with command over multiple energy simulation software, operating platforms and Office documents.

ICLEI – Local Governments for Sustainability is a global network of more than 2500 local and regional governments committed to sustainable urban development. Active in 125+ countries, we influence sustainability policy and drive local action for low emission, nature-based, equitable, resilient and circular development. Our Members and team of experts work together through peer exchange, partnerships and capacity building to create systemic change for urban sustainability.
